Whereas, the Family of Medium Tactical Vehicles (FMTV) is a series of military trucks and trailers built in Sealy, Texas that perform a variety of roles for the U.S. Army, from cargo and troop carriers, to artillery and air defense missiles weapons carries and U.S. military personnel in Iraq and Afghanistan are currently using FMTVs; and

Whereas, more than 56,000 FMTVs and trailers have been delivered to the Army over the past 17 years with 29 variants to date and Texas workers produced more than 40 FMTVs per day in Sealy with the highest ISO quality manufacturing unit ratings in the industry; and

Whereas, the Army has coined the term "ultra-reliable" to describe the FMTVs built in Sealy; and

Whereas, the Texas-based production of FMTVs employs 3,000 people and contributes more than \$500 million to the Texas economy each year through salaries, contractor costs and vendor partnerships; and

Whereas, the FMTV contract in Sealy has ensured the continuous production of the safest, most time-tested and proven FMTV in history to our fighting men and women in harm's way; and

Whereas, the U.S. Army has announced plans to move the FMTV contract from Sealy (BAE Systems) to a Wisconsin vendor (Osh Kosh); and

Whereas, the bidding process for this contract may have been flawed and is currently under appeal; and

Whereas, BAE has a strong economic impact on this region in the form of jobs, taxes, and investment;

Now Therefore, Be it Resolved, that the Economic Development Foundation of Brenham requests the US Army and Department of Defense to perform a critical analysis of the Wisconsin award (Osh Kosh) to reverse the award decision of this rebuy contract from Wisconsin (Osh Kosh) to Sealy, Texas (BAE Systems).

Approved and Adopted by the Board of Directors of the Economic Development Foundation of Brenham on November 11, 2009.
